

**PTMT** TAPS | Bath  
Fittings

Smooth shiny  
& **STRONG**

AN ISO 9001:2015 CERTIFIED COMPANY

# FEATURES

Smooth shiny  
& **STRONG**

## PTMT Taps & Bath Fittings

### **RUST FREE**

PTMT taps are made from (Polybutylene Terephthalate), they do not contain any metal components that can rust or corrode when exposed to moisture or environmental conditions.

### **LONG LIFE DURABILITY**

PTMT is generally resistant to a wide range of chemicals commonly found in household plumbing systems, such as cleaning agents and various water treatments. This resistance helps prevent degradation or weakening of the tap material.

### **SCRATCH RESISTANT**

PTMT is attributed to its molecular structure and inherent properties. It forms a hard and durable surface that is less prone to scratches and abrasion compared to some other plastics.

### **IDEAL FOR HARD WATER**

PTMT is a durable and long-lasting material. It can withstand exposure to hard water without deteriorating or corroding, ensuring a long service life for PTMT plumbing fixtures.

### **WATER SAVING TECHNOLOGY**

Specially designed to reduce the amount of water that flows out of the faucet while maintaining the perception of strong water stream.
